Dear Bob,

Re: Dunn and Standard I Permit Transfers, Atlas Minerals, M/037/017,
M/037/005, San Juan County, Utah

I have enclosed the permit transfer forms for the Dunn and the Standard I. The acreage amounts have been filled in. You only need now to sign and notarize the portion on page 3. When you have done that, send the forms back to me and I will take care of the rest.

I have also enclosed our current bond estimates for both sites. The bond estimates show a breakdown of costs.

I have not enclosed bonding forms because our Board is redrafting these. These will not be ready until September. However, I intend to obtain Board approval for these sites on August 25th. I will need a form, an amount of surety, from you before hand, that I can present to the Board. This will be identical to what we did before, but without, for now, the bond forms. I have also enclosed for you some bonding information.

Don't hesitate to call if you have questions.

Sincerely,

Holland Shepherd
Reclamation Soils Specialist
